MANIFESTO RWANDA NATIONAL CONGRESS

www.rwandanationalcongress.com

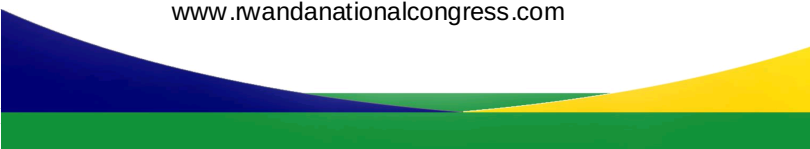

A word from the
Chairman of the Rwanda National Congress (RNC).

Fellow Rwandans,

The Rwanda National Congress (RNC) is a mass democratic movement founded on one clear and unwavering principle: to liberate Rwanda through truth, justice, and the will of the people.

Our struggle is not against a nation, but against a system that has denied Rwandans their fundamental freedoms — freedom of expression, freedom of choice, freedom from fear, and freedom from repression. We stand for a Rwanda where leadership serves the people, where institutions are independent, and where no citizen is silenced for thinking differently.

www.rwandanationalcongress.com

RNC believes in democratic change, accountability, and national reconciliation rooted in truth — not intimidation. We reject politics of division, violence, and lies. Our vision is a Rwanda where every citizen, regardless of background or opinion, has an equal voice in shaping our country's future.

To the youth, workers, farmers, intellectuals, and all patriots: you are the heart of this movement. Liberation is not a moment — it is a process driven by courage, unity, and persistence. No amount of repression can stop a people who have awakened to their rights.

The future of Rwanda belongs to its people. And that future will be free.

Frank Ntwali

Chairman Rwanda National Congress
